SOCIETY  
AFTER  
DOOMSDAY

## About the Author

Bruce Beach, Radiological Scientific Officer and former Professor of Economics. Designer/founder/coordinator of the renowned Ark Two nuclear survival complex with TEAM Leaders in all fifty of the United States and a number of other countries.

Bruce and his wife Jean (and Ark Two) reside in Horning's Mills, Ontario the home of Jean's family since the 1800's. As volunteers they raise puppies for autistic children.

## About the Book

*Reconstruction of a Just Society after Doomsday.* This is the "How To" book for the "out of the box" thinker who is willing to examine workable solutions that can be applied by groups of survivors to the problems that they will face in a world-encompassing catastrophe.

The book also acknowledges the traditional cultural view of the North American Indians and acknowledges the importance that they can play, if they become spiritually enlightened, in awakening the world to the new values unto which it must attain.
